

# FRECKLES

Now is the Time to Get Rid of These Unly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from any druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.

## STRIKE BREAKERS ATTACKED

AT PAPER MILLS IN COBURN, N. Y.

Coburn, N. Y., July 21.—Seventy-five special officers were sworn in tonight following the disorder of today when former employees of the International Paper Co. now on strike, attacked a train bearing strikebreakers at the railway station.

Phillip T. Dodge, president of the paper company, announced tonight that the company proposed to reopen its mills at once and would hold the village and county responsible for damages to its property and interference with its business.

State troopers tonight patrolled the streets in the mill district.

On a certain day in the beginning of summer it is customary in the south of China for people to partake of dog's flesh to fortify themselves against the coming heat and as a preventative against disease.

# PERSONALS

Miss Millicent Mitchell of Norwich is the guest of Mr. and Mrs. Hart Hillier of Niantic.

Miss Alice Taylor of Andover is the guest of her mother, Mrs. Howard Green of Versailles.

Walter F. Young of Brooklyn, N. Y., is visiting W. R. Sanders, of Arnold street, Norwich.

Ernest Latimer and family of Norwich are occupying Mrs. Robert Sawyer's house, at Essex.

Mr. and Mrs. Joseph E. Burns and family of Williams street are at Fishers Island to remain until August 1.

Charles A. Ingalls, of Boston, formerly of Greenville, is visiting friends in Norwich, also his sister of New London.

Mr. and Mrs. Charles Ludwig, Jr., of Cleveland, Ohio, are spending several weeks with Mr. Ludwig's parents of Franklin street.

John F. McCormick of New York city is at his home on Perkins avenue for a two weeks' stay with his mother, Mrs. D. J. McCormick.

Prof. and Mrs. Frank L. Farrell moved to New York Thursday afternoon to spend the week-end and had as their guest Miss Henrietta V. Steinkamp.

Miss and Mrs. James C. Macpherson and son Lorain have left for Biddeford, Me., where they will remain for two weeks, visiting Mrs. Macpherson's parents, Mr. and Mrs. Joseph H. Whittehead.

Thomas David Daniels.

The funeral of Thomas David Daniels took place at the mortuary chapel of C. A. Gager, Jr., on Thursday morning at 9.30 o'clock. There was a large attendance that included members of the staff of Davis theatre, friends from Providence and Pawtucket. There were many beautiful floral tributes which included a wreath from the employees of the theatre, a pillow marked "Friend" and a green from Mrs. and Mrs. Richard Seed with whom Mr. Daniels had made his home. The services were conducted by Rev. Charles H. Ricketts, pastor of the Greenville Congregational church. Friends acted as bearers.

Burial was in the Massachusetts cemetery at Central Falls, R. I., where Rev. Mr. Ricketts read a committal service.

Mrs. Ellen Sullivan.

The funeral of Mrs. Ellen Sullivan was held at 9 o'clock Thursday morning at St. Mary's church, New London, where a high mass being celebrated by Rev. Alexander Wollschlaeger. The deceased was Mrs. E. DeWigman, nee McMillen, William Walsh and Andrew Morris. The burial was in St. Mary's cemetery, New London.

WEDDING

McCall-Terry

Joseph McCall of this city and Miss Annie Regina Terry, daughter of Mr. and Mrs. James Terry of Mystic, were married Thursday morning at 9 o'clock in St. Patrick's church at 10 o'clock by William J. Fitzgerald, in the presence of a large gathering of relatives and friends. The bride wore white silk trimmed with georgette crepe and lace with a veil caught up with orange blossoms which was worn by Mrs. Clara McGuigan 30 years ago Thursday. The bridesmaid was Miss Agnes Bradley of Norwich, a cousin of the bride, and she wore yellow organdie with hat of the same and yellow roses. The best man was John Sullivan of Taftville, an intimate friend of the bridegroom. The bride was given away by John L. McGuigan of Philadelphia.

After the ceremony a wedding breakfast was served at the Mystic Hotel school, after which Mr. and Mrs. McCall went for Plymouth, Mass., on a wedding trip. Upon their return they will reside at 25 Ward street, Norwich.

ENERGY IN CLOUDS

A cloud, though composed of water is so light that it floats in the atmosphere.

It is made up of minute globules of water, each one of which has its nucleus a particle of dust. The weight of a cloud measuring 10,000 feet in diameter like 200,000 tons, if its material were condensed.

This material has been lifted into the sky by the power of the sun. One can observe the process in operation when one sees a "thunder head" cloud mounting skyward on a summer day.

The cloud assumes varying shapes as it rises slowly, but the clouds grow up more slowly when it reaches a point where its top is cooled to the degrees of the surrounding atmosphere.

The cloud assumes varying shapes as it rises slowly, but the clouds grow up more slowly when it reaches a point where its top is cooled to the degrees of the surrounding atmosphere.

Oxygen and Animals

Is oxygen necessary for animal existence? We used to believe that oxygen was indispensable to life until we found that certain minute organisms would flourish when entirely deprived of oxygen. Then we discovered that there are many bacteria to which oxygen is actually fatal. It has not been demonstrated, says an American scientist, that vital activity without oxygen is possible not only in one-celled organisms but also in animals with well developed systems of muscles and nerves. Just as it is possible to build a transistor which would burn hydrogen and chlorine instead of oxygen and carbon, so it is possible for a living organism to produce chemical energy by the combination of other gases than oxygen. The higher animals have learned to depend upon oxygen because it is found everywhere on our earth.—Ex-change.

Governor General of South Australia.

At Granby, Mass., last Tuesday evening, Clayton Smith and his bride were given a surprise party at their home on East street. There were readings by Mrs. Bertha Worthington, with music in charge of Mrs. C. H. Smith. A table of groceries was presented to the newly married couple in behalf of neighbors and friends by Rev. C. H. Smith. Refreshments were served by Mrs. Smith. Mrs. Smith was formerly Miss Marion Chase of Danielson, Conn., and at one time taught in South Hadley.

Loans Pequet Manor.

S. F. Peterson, of New London, has leased Pequet Manor in Pequet avenue, that city, to Albert E. Lazzaro of Middlefield, this state. Mr. Peterson has a lease on the manor. Mr. Lazzaro has taken the manor on a sub-lease.

The manor was opened at the beginning of the summer by Emil Ekger of Norwich, but he discontinued it recently and will surrender the lease.

Want Work on New Schoolhouse.

Abundant signs of unemployment in the city have been given in the great number of applications made to Secretary Thomas J. Kelly and other members of the school board for jobs on the work on the new schoolhouse at South Hadley. The men applying for work represent all kinds of workers.

Some people are too conscientious to preach what they practice.

# Claim Bankruptcy Schedule Does Not Contain All Donovan's Real Estate

In the matter of the bankruptcy of John Donovan, keeping a store at 56 Roath street, who filed a petition in bankruptcy early in January, a hearing was held here Thursday morning before Referee Edward M. Leonard of Hartford for the first examination of the bankrupt.

The hearing was held from 10 o'clock to noon in the office of Bankruptcy Referee Thomas M. Shields and was marked by the attempt of Roderick M. Douglas, attorney for John F. Craney, one of the creditors, to show that Mr. Donovan had omitted from his schedule of assets several pieces of real estate in this city of a value of \$1,000. The bankruptcy schedule shows one piece of real estate valued at \$1,700.

Mr. Donovan's antipathy to Attorney Douglas and Mr. Donovan, which once before at a hearing resulted in an attack with his fists upon Mr. Craney, was again in evidence Thursday. He repeatedly interrupted Attorney Douglas and at one time used such language that the attorney called the court's attention to it as contempt of court. He refused to sit opposite Attorney Douglas in the court room, it was stated, alleging that they were enemies and that he would strain himself if he got too near the man and couldn't tell what the consequences might be.

In one of his first questions, Attorney Douglas asked Mr. Donovan the admission that he knew in 1913 he was insolvent. He said that he now resided in Montville. The attorney produced records and deeds to show that Mr. Donovan's grant list in 1913

showed 11 houses valued at \$14,500. In 1914 there were 11 houses in 1915, and in 1916, eleven, in 1917 three, and in 1918 one of the value of \$1,700. It was brought out that in 1917 the Dims Savings bank had foreclosed mortgages on four of the pieces of real estate and these were bought from the bank by Mrs. Donovan.

Certificates from the town clerk's office dated January 21, 1917, which showed two water lots, Mr. Donovan went into bankruptcy, were produced to show that the title to the seven pieces of property stood in his name then. In rejoinder to these Mr. Donovan said that the property was bought with his wife's money and that he was trustee for her. One of the claims of Attorney Douglas is that when the bank foreclosed on the homestead property there was a tract of land left over that was not covered by the foreclosure. Mr. Donovan was asked if he did not remember pointing out to Sheriff Draper the boundaries of this extra tract. He said he did not. He was asked if he did not point these boundaries to the sheriff in the hearing of Mr. Craney. His reply was that he was sure he did not for if Mr. Craney had been there at the time he would have shot him.

The hearing was adjourned to a later date to be set by Referee Leonard. Attending the hearing were Mr. Donovan, with his attorney, John H. Barnes, Esq., and his attorney, R. M. Douglas, Esq., Charles E. Chandler, the engineer, E. A. Prentice, the real estate agent, and a young woman stenographer who took the court records for Referee Leonard.

LIBRARY FOR PRISONERS

SECURED BY FATHER BYRNE

Good Words, the Atlanta, Ga., Penal Prison publication, says in its July issue that the inmates of a prisoner signing himself L. R. S.—

The Catholic library has increased rapidly, and is proving very popular with the inmates. From very small beginnings the library has grown to this side as knowledge that any institution could well be proud of. The circulation of books now numbers about four hundred weekly, and the inmates are very appreciative of the men by the men is notable and gives evidence of their appreciation. Contained in the Catholic library are works of best authors, and the latest works of Hughes, Lyndwood, Kynne, Graf and other popular writers.

Any Catholic punctual in church duties is eligible to draw books, which can be changed by leaving books at the chapel on Sundays. Attendance at mass is the only appreciation—Chaplain Michael J. Byrne asks in return for the privilege afforded by the library which has been secured by the inmates of the prison.

Father Byrne left the 25th of June for Norwich, Conn., to be present at the laying of the cornerstone of the new Washington Hotel. He was born and reared in that town where he was born and reared. He was the celebrant of the mass on that day, July 2nd and held the distinction of being the first priest to represent the pioneer families of his home community. During his absence mass will be said here by a priest from the Marist college of Atlanta.

NORWICH AUTO RITS TRIP

IN MASSACHUSETTS CITY

Charles W. Solomon, 226 West Main street, this city, received slight injuries Wednesday afternoon at the foot of the hill in Springfield, when he was knocked down by the front end of his machine which was being driven by Max Steinlieb, 223 West Main street, Norwich, when the machine crashed into a tree. According to the report of the accident turned into the police department by Solomon, he was driving east in Westfield street when his engine stalled. He asked Steinlieb to drive the machine while he could walk to the motor from the running board. Steinlieb had only driven a few yards when he stalled. He said the impact knocking Solomon to the ground. The mudguards of the auto were broken.

143 SCOUTS ENROLLED

AT GARDNER'S LAKE CAMP

In point of attendance as well as in other respects, the Boy Scout camp at Gardner's lake has been the most successful in the history of the New London council. The camp closes its third week today (Friday) and it has been attended by 143 scouts thus far.

The camp opened July 1st and during the first week 51 boys attended, during the second week ending July 15 there were 43 and this week there are 49 at the camp.

CATHOLIC COUNCIL MEMBERS

CARRY SWEETS TO PATIENTS

Members of the Norwich branch of the Catholic Women's League, under the leadership of Mrs. M. J. Casey, Mrs. M. H. Donahue and Miss Mary E. Hartie, visited the Norwich state hospital during Thursday afternoon.

The visitors made the patients grateful and happy in distributing among them fancy cookies and candies.

Fruits of the Philippines.

Among the productions of the Philippine Islands are two delicious fruits which are well known in the rest of the world. One of these is the durian. It grows on a lofty tree somewhat resembling an elm, its about as large as a coconut, has a thin shell, and contains a sweet, creamy pulp which combines some of the flavors of a delicious custard with those of a fine chocolate. To eat durians, we are told by those who know, is a new sensation worth a voyage to the east to experience. Americans in the islands call the durian "the vegetable hamburger" because the others have spoken of it as the mango. The fruit is so packed with liquid it contains cannot be preserved for shipping abroad.

Surprise Shower at Granby.

At Granby, Mass., last Tuesday evening, Clayton Smith and his bride were given a surprise party at their home on East street. There were readings by Mrs. Bertha Worthington, with music in charge of Mrs. C. H. Smith. A table of groceries was presented to the newly married couple in behalf of neighbors and friends by Rev. C. H. Smith. Refreshments were served by Mrs. Smith. Mrs. Smith was formerly Miss Marion Chase of Danielson, Conn., and at one time taught in South Hadley.

# SAILORS WAIT IN CELLS FOR MONEY TO PAY FINES

In the city court on Thursday morning before Judge Arthur F. Libby, three sailors were presented on charges of intoxication, fighting and resisting an officer. Thomas Moran of the Submarine Base was fined \$20 and costs for fighting and \$5 and costs for intoxication, his bill being \$41.25. Not having the necessary funds he telephoned to friends in New London for the money.

George E. Reddick was fined \$7 and costs for resisting an officer and he, like his friend, had to send out for the money. A third sailor was found to be not guilty and was discharged.

The money to pay the fines had not been received here up to Thursday night and the two sailors remained in their cells at police headquarters over night. Word was sent to them that they might expect the money Friday.

The case of Michael Lapouch, arrested in connection with the wholesale coffee thefts in this vicinity, was called up and the man brought over to the superior court under bonds of \$250 which were provided.

PETROLEUM IMPORTS GROWING FROM MEXICO INTO U. S.

Petroleum imports into the United States in the fiscal year which ends with this month will be nearly twice that of any earlier year, notwithstanding the enormous production of our own oil fields. The total quantity of petroleum imported in the fiscal year 1921 into this country, which itself produces two-thirds of the oil of the world, will nearly be 6,000,000,000 gallons against about 3,000,000,000 in 1920, approximately 2,000,000,000 in 1919, 1 1/2 billion in 1918, and 1,000,000,000 in 1917.

The rapid growth of imports of petroleum into a country which produces more than two-thirds of the mineral oil of the world says a statement by the National City Bank of New York illustrates the growing disposition of world industries and commerce to move the natural products to points having best facilities for transforming them into condition for use of man. Prior to 1911 this country with production and therefore refining facilities three times as great as that of any country in the world imported less than 10,000,000 gallons of petroleum per annum from other countries.

In 1912, with the development of production in Mexico of crude petroleum which annually moved to the nearest trade center in which it could be put into marketable condition and thence distributed to the consuming world, we imported, chiefly from Mexico, 150,000,000 gallons as against an average of 10,000,000 gallons a year prior to that time. In 1913 our imports jumped from 150,000,000 gallons to 500,000,000 gallons of crude oil. In 1914 775,000,000 in 1915 1,000,000,000, in 1917 they passed the billion mark and were 1 1/4 billions in 1918, nearly 2,000,000,000 in 1919, over 2 1/2 billion gallons in 1920, and in the fiscal year 1921 will approximate 4 1/2 billion gallons, and probably touch the 5,000,000,000 gallon line by the end of the current calendar year.

These figures relate to crude oil imported, but meaning there has been a proportionate growth in importation of the manufactured article, the total quantity of refined petroleum in all forms imported in the fiscal year 1921 was 4,700,000,000 gallons in 1920, and 4,900,000,000 in 1919, and will approximate 5,000,000,000 gallons in the fiscal year which ends with this month. Most of this enormous importation comes of course from Mexico. Of the crude oil available 4,791,000,000 gallons came from Mexico in the fiscal year 1920, 4,250,000,000 in 1919, and 22,000,000 in 1915.

Practically all of the oil imported from Mexico comes by tank steamer the quantity imported by rail being extremely small. About one third of the crude oil entering the United States of Galveston, Sabine and New Orleans, two-thirds passes through the Gulf of Mexico, and the balance of the remaining northward to Baltimore, Philadelphia, and New York. The latest available figures show that the total quantity of refined petroleum imported into the United States in the current year will be nearly 5,000,000,000 gallons, the figures for the fiscal year approximating 4,900,000,000 as against 441,000,000 in the fiscal year 1920, 425,000,000 in 1919, and 22,000,000 in 1915.

SPEED

The swiftest thing we know is light, which travels 186,000 miles a second; the slowest is the human thumb nail which moves 2-1,000,000,000ths of a yard a second.

This from Science and Invention, which makes some more speed comparisons as follows:

A cannon ball has been fired at a speed of 2,600 miles an hour.

A bamboo tree grows 27-100,000,000ths of a yard a second.

The earth speeds around the sun at 65,533 miles an hour.

Tommy Milton's motorcar traveled 1 mile in 23 seconds, or 156 miles an hour.

A snail moves 155-10,000ths of a yard a second.

An electric train in tests between Berlin and Zossen made 130 miles an hour.

Succeeds Schurman As President of Cornell

Dr. Livingston Farrand succeeds Dr. Jacob Gould Schurman as President of Cornell. He was Chairman of the Central Committee of the American Red Cross, formerly professor of anthropology at Columbia and at one time President of the University of Colorado.
